HI Extension Program for Value Bronze Individual Plan

Guaranteed Acceptance

Hospital Indemnity Benefit

The following benefits are payable when a Participant has a qualified Hospital confinement. To receive benefits, each Participant must be enrolled in this program and complete the applicable Elimination / Waiting Period. Unless otherwise indicated below, any benefit amount, limitation, or benefit maximum applies to each Participant.

MVP Programs are affordable and comprehensive for both employers and employees. However, recognizing these programs have some limitations, the HI Extension Program (elected at the employer level) was created with SB/A to provide a vital tax-free benefit to help offset potential out-of-pocket costs. Benefits are designed to provide protection when an MVP plan's hospital benefits are exhausted.

HI Extension	Benefit / Reimbursement Amount	Elimination / Waiting Period	Limitation
Value Bronze HI Extension	\$2,000 per day (Day 6 through discharge date)	5 Days \$0 Benefit for days 1-5	up to 365 Days per condition (diagnosis)

Plans shown have an initial benefit waiting period of 299 days for pregnancy. Benefits are available for most medically necessary treatment of an illness or injury that occur in a hospital facility. Benefits are not available for hospital confinement initiated during the Elimination Period. Please refer to the full Summary of Benefits for full plan Definition, Limitations, & Exclusions.

Please note: This is a generic representation of benefits and is only intended to serve as an initial proposal of benefits potentially available. Refer to the Schedule of Benefits for the official list of Benefits Coverage, Limitations, & Exclusions. If benefits outlined on this page differ from the Schedule of Benefits on Official Plan Documents, the Schedule of Benefits or Official Plan Documents will govern.
